

TERMS OF SERVICE

THESE TERMS OF SERVICE ("TERMS") APPLY TO THE SERVICES PROVIDED BY THE WEBSITE JACKPOOL.ORG ("WEBSITE", "MINING POOL", "WE" OR "US") FOR USERS ("MINER", "YOU" or "YOUR"). PLEASE READ THESE TERMS CAREFULLY BEFORE USING THE SERVICES OF JACKPOOL.ORG. IF YOU DO NOT AGREE TO THESE TERMS, DO NOT USE THE SERVICES OF JACKPOOL.ORG.**

General

By accessing and using the services of JackPool.org, you confirm that you have read these terms and accept and agree to be bound by its provisions.

By using the services of JackPool.org you accept all possible risks related to experimental software usage. We cannot compensate any irreversible losses but will do our best to prevent worst case scenarios.

By using the services of JackPool.org, you confirm that you are at least 18 years old (or the age of majority in your jurisdiction) and you are not breaking the laws of your country.

Disclaimer

The mining pool is not responsible for the safety of your coins. The mining pool does not keep your coins longer than required for confirmation and creation of payouts. Keep your coins in official wallets or on cryptocurrency exchanges.

The mining pool is not responsible for the performance of your equipment. Only you are responsible for all the settings and configurations of your mining hardware.

The mining pool is not responsible for any of your costs. You pay all your expenses, such as electricity, internet, rent, and others.

The mining pool is not responsible for 100% uptime of our mining pools and website. We may disable our services for maintenance at any time. You are responsible for configuring your equipment to automatically switch to a backup pool in such cases.

The mining pool is not responsible for third-party blockchain nodes. Any responsibility for errors in the operation of third-party nodes and their blockchain lies with the developers of those nodes.

Payouts

All mining pools provided by JackPool.org operate on a reward system based on found blocks.

The miner receives a reward only when the pool finds a block. The miner does not receive a reward for submitted shares or time spent mining.

The fee for mining pools is defined on page of pool and is deducted from the block reward before the payment to miners is made.

Inactive Miners

We may reset the statistics of a miner if they have not been active for more than 30 days. Any remaining balance that the miner did not receive due to their own fault (e.g., being offline for an extended period or providing an invalid wallet address) will be considered as a donation to the pool.
